

# LAFORTE Maxima

Digital solutions for large volume printing

# Our difference

Why choose LaForte?

## Exceptional production capacity

for printing medium volumes

## Premium built

Quality materials with outstanding performance mechanics

## Dual module heads

- Dual channel: 2 colors per head
- Excellent speed & precise jetting
- Significantly reduced maintenance cost due to number of heads

## Upgradable technology & flexibility

- Head count adjustable from between 2 to 8
- Keep the printer, change the software and features: the machine grows with your business

## Integrated printing solutions

Software + hardware + ink + media

## International team of experts

Our team listens and understands your needs offering cost effective consultancy and solutions

# Our printing results

What are the LaForte advantages?

## High definition printing

- Maximum resolution of 1200 DPI
- Variable drop technology

## Accurate printing: quality and precision

- Automatic head alignment for maximum precision
- Individual head adjustments: slant and stagger
- Precise belt feeding movement
- Feed accuracy

## Consistant printing results

- Advanced control software accentuates the clearness and authenticity of the output, reducing the dithering effect
- Advanced matrix dot layout guarantees an exceptional yield

2017– Future textile awards:  
**LaForte best innovation**  
industrial textiles

## Printing technology

Variable drop inkjet from 4pl a 72pl  
(2.656 nozzles - 2 colours)

## Ink tank capacity

5/10 litres (double tank)

## Compressed air consumption

6–8 bar - 250 L/min

## Necessary operating conditions

Temperature 20 °C–24 °C (68 °F–76 °F)  
Humidity 50–65%

## Media feeding mechanism

Rotary belt with vacuum system (patented)

## Interface

Ethernet 1 GB

# Printer model and specs

## POWER SETTINGS

16 kVA / 3 phases+neutral /  
380–420V ±10% / 26A

## DIMENSIONS

4680×2300×h 2400 mm

## WEIGHT

2.800 kg

## POWER SETTINGS

16 kVA / 3 phases+neutral /  
380–420V ±10% / 26A

## DIMENSIONS

5080×2300×h 2400 mm

## WEIGHT

3.000 kg

## POWER SETTINGS

19 kVA / 3 phases+neutral /  
380–420V ±10% / 26A

## DIMENSIONS

6180×2300×h 2400 mm

## WEIGHT

4.500 kg

# Our mechanics makes the difference

How does it work?

## Anti-mist technology & solvent free printing

- No contamination
- No glue used on belt

## Innovative rotary belt

- The printer may be used to print on various types of paper using an innovative rotary belt with air vacuum system
- Giving more stability and no elongation to obtain better printing results
- Easy to clean for less downtime
- Patented system

## Solid aluminum frame

Eliminates vibration, guaranteeing a stable print and a long life with no rust

## Heavy-duty carriage

- Laser cut heads stage
- External electronics
- Fiber optic cables

## Stable ink sub-tank

- System for negative pressure control
- Separate ink pressure per single channel
- Pressure sensor for auto-correcting pressure stability
- External sensor for determining ink level

## Reliable & precise motion

- Manually assembled in house
- Magnetic linear motor and double rail for carriage stability
- Aluminum bridge 0.02 mm torsion/deflection
- 300 kg bridge weight
- Head crash safety plates

## Feeding & auto switch ink system

- Eliminates downtime for manual ink change: auto ink switch when empty
- 10 kg per color
- No ink is wasted
- Rapid connector - Easy to operate

## Touch panel

- Front and back side
- User friendly interface
- Print queue manager
- IoT Maintenance Section
- Remote assistance

## Front dryer & take up

- Micro weave ceramic lamp for low energy consumption
- Compact
- Huge reduction on exhaust smokes
- Continuous tension and roll alignment

## Printing resolution

## Supports

Paper and plastic film

## Ink

Sublimation, pigment

## Number of colors

## Speed\*

\*Depending on complexity, coverage and quality required.

2x4/4/6/8 colours  
8-16 heads  
3-4 row

Example of a configuration for all models, specifics and details to be inserted.

- Accessories are an optional
- Example of a full line configuration

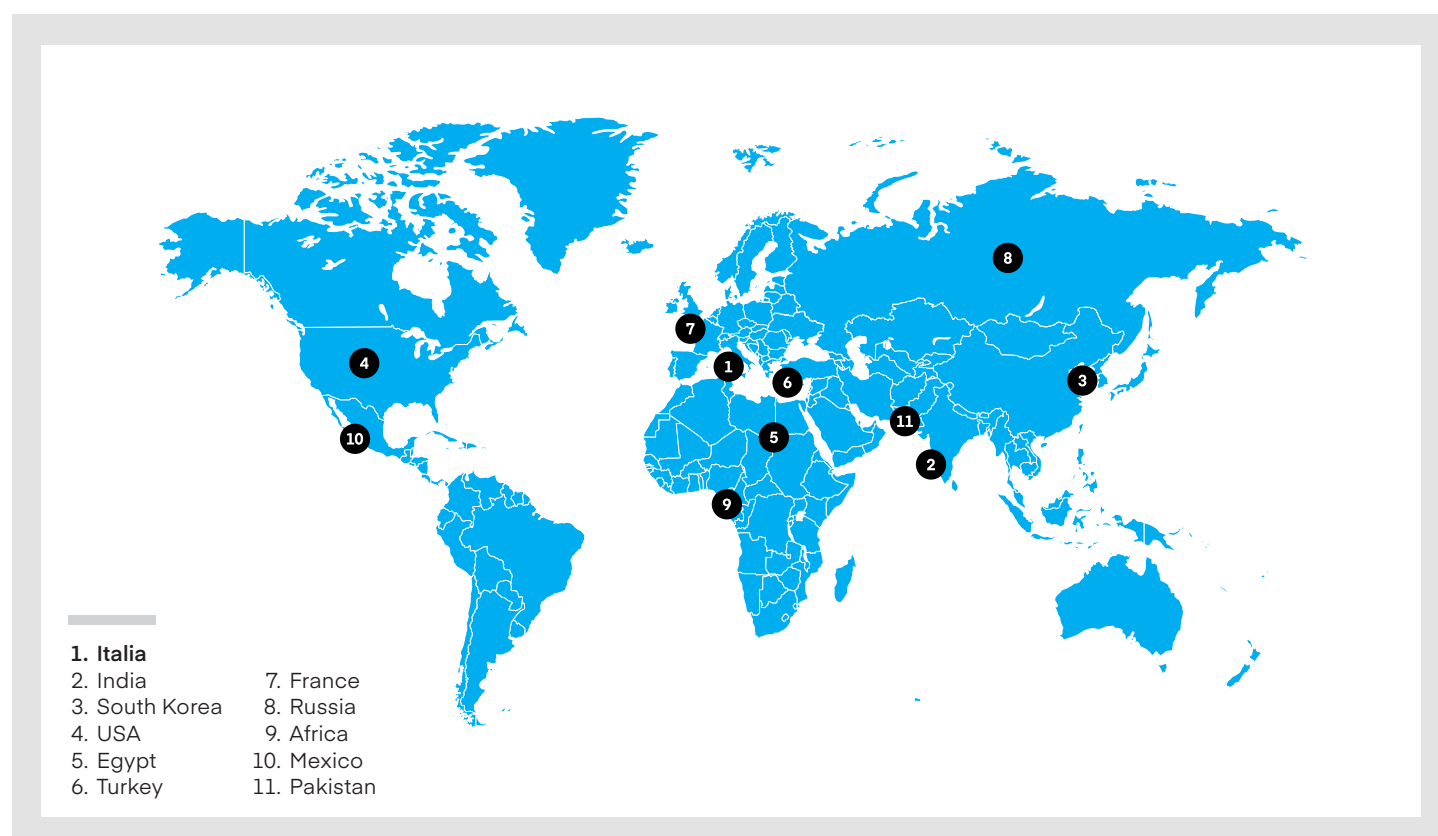

# Aleph

In printing, we care

Founded in 1999 in Como, in the heart of Italian textiles district, Aleph has become an **international player in digital printing solutions with a dedicated sales force and a distribution network** located in key textile markets. Aleph's **extensive know-how in high quality proprietary printing software and the experience gained with major textile companies**, have allowed the company to become a manufacturer of **technologically advanced inkjet**

**digital printers**. From high-tech digital printers to drying systems, from proprietary software to consumables, **Aleph is able to offer integrated printing solutions to their clients in order to become a partner for their success**. Thanks to its **customer-centered approach, cost-effective solutions and the expert service**, Aleph aims to ensure the clients the maximum return on their investments.
